Trustee's Sale.
Whereas, Mary E. Meador, in her own right, and James H. Meador, her husband, by their certain deed, dated February 20, 1902, and filed for record on February 21, 1902, and recorded in book 33, page 23, in the office of the recorder of deeds within and for Holt County, state of Missouri, conveyed to the undersigned trustee in trust, to secure the payment of the promissory note in said deed of trust described, the following described real estate, situate, lying and being in the county of Holt and state of Missouri, to-wit: The east half of the northeast 1/4 of the N. E. 1/4 of section No. fifteen (15), in township No. sixty-two (62), of range No. forty (40), containing 80 acres, more or less. And whereas default has been made in the payment of the interest thereon; and whereas the legal holder of the note has requested me to execute the power vested in me by the terms and provisions of said deed of trust. Therefore, in compliance with said request, and in pursuance of the provisions vested in me by said deed of trust, I will on
MONDAY, FEBRUARY 15, 1904,
between the hours of 9 o'clock in the forenoon and 5 o'clock in the afternoon of said day at the court house door in the city of Oregon, Holt County, Missouri, sell at public vendue to the highest bidder, for cash in hand, the above described property, to satisfy said debt and interest, and the costs of executing this trust.
EDWIN A. WELTY, Trustee.

Habits of Nonagenarians.

In the study of the lives of 73 persons more than 90 years old living in the city of Dresden, Saxony, it has been discovered that all sleep in closed rooms at night and abhor bathing, and all sleep eight or nine hours daily. They vary in some of their habits, but these three—plenty of sleep, and avoidance of draughts at night and of bathing—are common to all. The conclusion of the government investigation points to these as essential elements of the secret of old age.

For Winter Use.

In Cashmere they have a novel method of putting fodder up for winter use. The country lies in a valley among the Himalayas. The chief industry of the people consists in raising fine wool, and in making this into fabrics which have carried the name of the country all over the world. As in winter snow lies some five or six yards deep, supplies of hay are hung among the branches of trees, where they are easily reached by the flocks of sheep.

Radium Industry.

The radium industry is rapidly developing in France and Germany, and even at nearly \$2,000 per gramme, orders are at hand for several hundred grammes. In medicine its effects are most extraordinary. A small glass tube, containing a little more than a thousandth of a gramme, takes the place of a powerful electric apparatus, and in cancer treatment gives results surpassing those of Roentgen rays.

Twenty Shots In His Head.

At the present time there is a keeper on a Hertfordshire estate who has about 20 shots in his head. Nearly 30 years ago this man was accidentally shot by an underkeeper, and there were 22 holes in the hat he wore, which is preserved to this day. The injured man never had the shots extracted, was long between life and death, and completely lost his hearing.

Misplaced Confidence.

"All I need is a fair chance," said the gentlest of men. "I've got plenty of confidence in myself if I could only get a start."
"You've got an unusual amount of confidence in yourself if you think you can persuade me to give you a start," said the hard-headed man.—Philadelphia Press.

Royal Literary Critic.

One of the best amateur literary critics is the duchess of Saxe-Coburg and Gotha, widow of the duke of Edinburgh. The duchess writes in five languages, and knows so well how a book should be written that her advice and criticism are sought by several of the leading writers on the continent.

To Cement Glass and Iron.

Common alum melted in an iron spoon over the fire forms a good cement for joining glass and iron together. It is useful for holding the glass reservoir of a lamp to its metal base and for stopping cracks about the base. Its great merit for this purpose is that paraffin will not penetrate it.

Swedish Brides.

The Swedish bride, who is superstitious, fills her pockets with bread, which she dispenses to everyone she meets on her way to the church, every piece she disposes of averting, as she believes, a misfortune.

A Bright Scholar.

Teacher—Do you know anything about algebra?
Bertie Young—Please, teacher, I do. It's a mule what is covered with stripes. I saw one at a circus.—Woman's Home Companion.

Kaiser as a Dancer.

A German critic, in describing the German emperor's actions in a ballroom, states that his majesty dances with as much impetuosity as he displays when leading a cavalry charge.

Sturgeons.

Sturgeons are the weakest of all fish in proportion to their size. A sturgeon weighing over a ton is perfectly helpless if attacked by a small swordfish.

Soapy Water for Starch.

When making starch use soapy water. The clothes will have a more glossy appearance and the ironing will be more easily accomplished.

To Make Boots Polish.

Rub with the inside half of a lemon, allow to dry, and black in the usual way, when a brilliant polish will be at once obtained.

Do Your CHILDREN ASK QUESTIONS?

Of course they do. It is their way of learning and it is your duty to answer. You may need a dictionary to aid you. It won't answer every question, but there are thousands of them. It will give you true, clear and definite answers, not about words only, but about things, the sun, machinery, men, places, stories and the like. Then, too, the children can find their own answers. Some of our greatest men have ascribed their power to study of the dictionary. Of course you want the best dictionary. The most critical prefer the New and Enlarged Edition of

WEBSTER'S INTERNATIONAL DICTIONARY.

If you have any questions about it write us.

Domestic Troubles.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in stomach and liver troubles. They not only relieve you, but cure. 25c. at C. O. Proud Druggist.

The Bishop's Ring.

The peculiar atmospheric or solar phenomenon, known as Bishop's Ring, seems to be of very rare appearance. It was first observed in Honolulu by Rev. Sereno Bishop a few days after the Krakatau eruption of 1883, and it has been seen but few times since. Mr. Ford has reported seeing it on the first three days of last August from a height of 6,000 ft. in the Alps. It appeared as a donut ring around the sun, the inner portion being of bluish silver color, while the outer part was a band of copper 20 degrees wide, slanting off into the blue of space.

At a Penny a Time.

One can now buy a pennyworth of sleep. The machine is a little over six feet in height. Drop a coin in the slot, and there falls down into a horizontal position a leather-covered couch provided with a comfortable rug. The tired traveler who misses his train and has to wait an hour or so, can by means of this machine take a comfortable nap. When he gets off the couch it rises automatically into place again, and can only be brought down by the insertion of a fresh coin.

Roaring in the Ears.

The roaring heard when the opening of the ear is stopped is due to muscle contraction. Dr. W. E. Scott states that the stethoscope reveals no sound whatever in a muscle at rest and that the sound when contracted varies with the different muscles. He believes the muscle sound may give the first indication of tetanus, serving also as an aid to diagnosis in other diseases.

What He Did Know.

During a recent visit to Yale university W. B. Yeats, the Irish poet, was asked by one of the instructors if he knew the age of a certain venerable professor of Trinity college, Dublin. "No," responded the poet; "I don't know precisely that, but I have heard that the combined age of all the professors at the Dublin university is 1,500,000 years."

Embalming Process.

In recent European experiments corpses have been kept for a certain time in a bath of chloride of calcium heated to 123 degrees then taken out and steeped for 24 hours in a cold solution of sulphate of sodium. The bodies are transformed into perfect mummies, to be kept indefinitely.

Not a Hero.

"I'm afraid my valet hasn't much awe of me, don't you know," remarked Cholly Gadalong. "Ah, well, they say 'No man is a hero to his valet.'"
"No," replied Kostick, "any man who would have a valet would naturally seem more like a heroine."—Catholic Standard and Times.

Stove Blacking.

Both vinegar and sugar have cohesive qualities when mixed with black lead. Women folk who have trouble in getting the stove polish to stay on will find that only a pinch of granulated sugar or a dash of vinegar will take effect surely.

Toilet Soaps.

That toilet soaps may be bought in quantities as advantageously as laundry soaps is the opinion of a soap manufacturer. Fine toilet soaps, he says, need drying and ripening just as much as the coarser varieties of the laundry.

His Favorite Novels.

Julius Verne declares that among boys' books his favorite is the "Swiss Family Robinson," while among "upgrown" authors Dickens and Scott afford him the most inexhaustible pleasure.

Cure of Tin Kettles.

To make tin kettles, etc., as bright as new, rub them with a woollen rag dipped in paraffin. Polish with a soft newspaper. Paraffin will also remove stains from varnished furniture.

Varnish Stains.

To remove varnish stains from the hands rub with a little methylated spirit, wipe off with a piece of rag or soft paper, then wash with soap and water.

A Suggestion.

Before boiling milk rinse out the saucepan with a little hot water; it will prevent the milk sticking to the bottom of the pan.

LIVER TROUBLES

"I used Theford's Black-Draught a good medicine for liver disease. It cured my own liver but cost me \$100 with doctors. It is called the medicine I take."—JES. CAULINE MARTIN, Parkersburg, W. Va.

"If your liver does not act regularly go to your druggist and secure a package of Theford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Theford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Theford's Black-Draught should always be kept in the house.

"I used Theford's Black-Draught for liver and kidney complaints and found nothing to equal it."—WILLIAM COFFMAN, Marblehead, Ill.

THEDFORD'S BLACK-DRAUGHT

ITCH—RINGWORM.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable; I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liment cured me completely and permanently. Since then I have used the liment on two separate occasions for ring worm and it cured completely. 25c. 50c and \$1.00 bottles. Sold by Hinde Drug Co.

Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes E. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by C. O. Proud Druggist.

The New-York Tribune Almanac.

Of course, it is possible to worry through life without keeping a **Tribune Almanac** at your elbow, but is it worth while—does it pay? For 25 cents a year this publication supplies you with a really marvelous amount of information, and the man who has it is an authority in his neighborhood. He doesn't have to be "guessing" or "supposing" about election pluralities, the names of cabinet ministers, senators, congressmen, governors or judges. He doesn't have to rely upon his memory when anything comes up about the big events of the preceding year or in relation to our army or navy, or sporting records, or, in fact, almost anything else of record worth knowing. If you never examined **The Tribune Almanac** just invest a quarter for once, and see how well pleased you'll be. The 1904 one will be on sale January 1, and may be had from your newsdealer, through your local paper or direct from **The Tribune Office, New York.**

Escaped An Awful Fate.

Mr. H. Haggins, of Melbourne, Fla., writes: "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by C. O. Proud Druggist. Price 50c and \$1.00. Trial bottles free.
